

Access & subscriptions platform built for SaaS

Scale faster with Veriam Startup Program

Managing customer access and subscriptions should be easy. Veriam replaces fragmented tools with one platform designed for SaaS businesses. Whether free or subscription-based, Veriam makes sure that your customers get the right access, right away.

Veriam Startup Program helps early-stage SaaS teams launch faster and manage accounts with ease.

One platform, everything you need

Veriam brings access and subscriptions together in one place. No more patching together different tools or dealing with messy integrations.

Why Veriam?

Access meets subscriptions.

Save time with natively integrated features.

Instant access updates.

Subscription changes instantly update access.

Plans with access control.

Link access and compliance to every subscription plan.

Faster onboarding.

Customers sign up, subscribe, and access in minutes.

One reusable login.

Users manage all Veriam-powered subscriptions in one place.

Built for SaaS growth

Scaling means keeping operations efficient, reducing churn and compliance risk. Veriam is designed with SaaS providers in mind.

- » Fast integration with minimal code—get up and running quickly
- » Self-service capabilities so customers can manage their own subscriptions and access
- » Fewer support tickets with subscription-linked access permissions and real-time updates

Veriam Startup Program

Early-stage SaaS companies sometimes need a bit of support. That's why we created the Veriam Startup Program, giving startups access to our platform at no additional cost—just transaction fees.

What you get

- 1 Full access to Veriam's platform,**
both Access and Subscription Management
- 2 Only pay transaction fees for three years**
so you can focus on growth (up to €1,000,000 in revenue)
- 3 User growth rewards**
for every 1,000 active users you onboard, we waive margins on €100,000 in revenue
- 4 Priority support and feedback**
with direct input into product development, including feature requests and bug fixes
- 5 Access to leadership with strategic calls,**
including CEO-to-CEO discussions, to align on growth and vision

Why join?

Instead of piecing together access and subscription tools, you can focus on building and selling your product.

- » Reduce dev time spent on patching, maintaining and troubleshooting different tools
- » Improve user experience with smooth onboarding and self-serve features
- » Stay compliant with built-in access controls, logs and automated updates

How to apply

We're currently rolling out the program to select startups.
